Last Update: 24.1.2023

Education

- ❖ Specialty/PhD (Field of Study, Name of University, Year Graduated)
Reproductive Health PhD, Isfahan University of Medical Sciences,
2022.

Thesis (Topic, Supervisor, Advisor)

The Process of Formation of Risky Sexual Behaviors in Women Drug
Users: A Grounded Theory Study

Supervisor: Dr Mahnaz Noroozi

Advisor: Dr Fariba Taleghani, Dr Gholamreza Kheirabadi

- ❖ Master of science(Field of Study, Name of University, Year Graduated)
Midwifery Education, Tarbiat Modares University of Medical Sciences,2014.

Thesis (Topic, Supervisor, Advisor)

The effect of the components of the metabolic syndrome in mid pregnancy on the anthropometric indicators of the newborn and neonatal outcomes

Supervisor: Dr. Lida Moghaddam Banaem

Advisor: Dr. Homa Homam

- ❖ Bachelor of science (Field of Study, Name of University, Year Graduated)
Midwifery, Lorestan University of Medical Sciences, 2011.

- ❖ Related degree (Field of Study, Name of University, Year Graduated)

Honors, Awards, and Scholarships (if available)

Experiences

1.Scientific position

Faculty member, Hamadan University of Medical Sciences. (2015 – 2017)

2.Clinical Experiences

Maternity ward, Imam Khomeini Hospital, Poldakhtar city.

Maternity ward, Bazarganan Hospital, Tehran city.

3.Teaching Experiences

Obstetrics and Gynecology (lecturer and Traineeship)

Maternal and Child Health (lecturer and Traineeship)

Neonate and Infant (lecturer and Traineeship)

Physiopathology of medical - surgical disease(lecturer and Traineeship)

Grants

- The assessment of maternal, fetal and neonatal outcomes of COVID-19 in referral hospital in Shahrekord City.
- Development and Localization of a Clinical Guideline for Reproductive Health care in Crisis Management.
- The effect of vaginal Evening Primrose Oil on cervical ripening and delivery outcomes in nulliparous women referring to Fatemieh Hospital in Hamadan , 2018.
- The Relationship between Spiritual Health and Feelings of Energy in Postmenopausal Women.
- The effect of family-centered care on the health literacy and self efficacy in menopausal women.
- Investigation of parenting style in single child and multiple children families.
- Evaluating the effect of combination of olive and honey cream on prineal healing and pain intensity of episiotomy, in Primiparous women referred to Maternity of Fatemieh Hospital Hamadan in 2017.
- Comparison of Primerose oil and Vitamin B6 on premenstrual syndrome in students of Hamadan University of Medical sciences,2016.
- Anticipation of Sexual satisfaction based on sexual knowledge and attitude factors in married women referred to health centers in Hamedan.

Abstract

1.International

- Factors associated with sexual risk behaviors in women drug users: A review study
(The 4th International Congress on BioMedicine (ICB2020)-Tehran)
- Outcomes and Challenges associated with In vitro Fertilization in Women with Polycystic Ovary Syndrome
(The 4th International Congress on BioMedicine (ICB2020)-Tehran)
- Maternal lipid profiles and gestational diabetes: a review study
(The 5th International and 7th Iranian Congress of Endocrinology and Metabolism Updates- Isfahan- 2019)
- Metabolic Syndrome And Its Components In Midpregnancy In Tehran
(The 2nd International Congress of "Debatable Topics in Obstetrics, Gynecology and Infertility"-Tehran-2018)

- Domestic Violence and Severity of Menopausal Symptoms and Quality of Life in Postmenopausal Women
(The 2nd International Congress of “Debatable Topics in Obstetrics, Gynecology and Infertility” -Tehran-2018)
- Metabolic syndrome and menopause: a review study.
(The 7th International Conference on Women-Shiraz-2017)
- The relationship between primary dysmenorrhea and anthropometric indices in female students: the effects of anthropometric indices on menstrual pain.
(The 7th International Conference on Women-Shiraz-2017)
- Maternal lipid profiles and gestational diabetes: a review study
(The 5th International and 7th Iranian Congress of Endocrinology and Metabolism Updates- Isfahan-2019)
- The relationship between maternal serum lipids at 24-28 weeks of pregnancy and jaundice on the first day of birth.
(The 4th International Conference on Women-Shiraz-2014)
- The relationship between metabolic syndrome in mid-pregnancy and anthropometric indicators of the newborn at birth.
(The 12th International Congress on Obstetrics and Gynecology-tehran-2016)
- Relationship between metabolic syndrome in mid-pregnancy and jaundice on the first day of birth
(debatable topics on obstetrics gynecology & infertility- Tehran-2016)
- The effect of maternal serum lipids at 24-28 weeks of pregnancy with rehospitalization of the newborn
(The 14th International Congress on Obstetrics and Gynecology-Tehran-2017)
- The effect of maternal serum lipids at 24-28 weeks of pregnancy on anthropometric indices of the newborn
(The 7th IRHRC Annual Meeting Reproductive and infertility Updates- Tehran-2015)

2.National

- The role of social media in midwifery education: a review study
(1m national conference of 100 years of academic midwifery in iran – Mashhad-2019)
- Is metabolic syndrome related to preeclampsia? A review study
(1m national conference of 100 years of academic midwifery in iran – Mashhad-2019)
- The use of pethidine in reducing labor pain
(1m national conference of 100 years of academic midwifery in Iran – Mashhad-2019)
- Parenting style and its psychological effects on parents in single-child and multi-child families
(1m national conference of 100 years of academic midwifery in Iran – Mashhad-2019)
- Metabolic syndrome and risk of endometrial cancer
(national conference of women's health promotion-isfahan-2019)
- Effect of omega-3 on metabolic markers in postmenopausal women with metabolic syndrome: a review study
(national conference of women's health promotion-isfahan-2019)
- Lifestyle and male fertility: a review
(National Congress on Individual Family and community Health Promotion-isfahan-2019)
- Oocyte donation is a risk factor for preeclampsia: a review study
(National Congress on Individual Family and community Health Promotion-isfahan-2019)
- Diagnostic biomarkers of neonatal sepsis
(Perinatal Mortality and Morbidity Seminar, Isfahan- isfahan-2019)
- The role of vitamin D intake during pregnancy on neonatal outcomes: a review
(Perinatal Mortality and Morbidity Seminar, Isfahan- isfahan-2019)

- Palliative care in patients with HIV/AIDS: a review
(Palliative care seminar with interprofessional approach, Isfahan- isfahan-2018)
